Windows 10, Beta causes severe error in string processing VB6 Januari 11, 2021

Windows specifications		
Edition	tion Windows 10 Home	
Version	2004	
Installed on	7-11-2020	
OS build	19041.685	
Experience	Windows Feature Experience Pack 120.2212.551.0	

Error type:

Company name appears corrupted at first screen or fatal error (illegal function call) appears due to wrong string conversion from the license setup file. This occurs after starting mcadp099.exe or after change data where string compacting functions generate error. This error from PDM2012 announces that content of compacted string is not equal after expanding and testing input versus output.

Programmers only: see value check in functions 'MKI()', 'MKS()' and 'MKD()' in source VB6_library.bas in module 2 of each .vpb project.

Steps to change this setting:

1) at control panel, select Clock and Region

Control Panel		- 0	×
← → → ↑ 🖼 > Control Panel > File Edit View Tools		~ O	٩
	your computer's settings System and Security Review your computer's status Save backup copies of your files with File History Backup and Restore (Windows 7) Network and Internet View network status and tasks Hardware and Sound View devices and printers Add a device Adjust commonly used mobility settings Programs Uninstall a program	View by: Category • See User Accounts Change account type Appearance and Personalization Change date, time, or number formats Change date, time, or number formats	

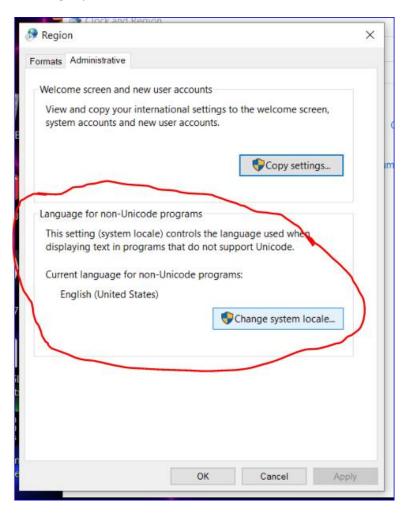

2) select Region
